

# Tip of the Week: Changing labels

---

We like to pride ourselves here at TimeSolv in making our application as flexible as possible for our users. Did you know you can customize many labels within TimeSolv to fit terms you use as a business?

Perhaps as a law firm, you don't want to refer to your customers as "Clients" or your cases as "Matters". Just head to Clients -> Settings and you'll see we offer a list of different labels to choose from. Similarly, you may not want to label your timekeepers by the default "Professional" in TimeSolv. Go to Account -> Settings and you'll see we offer a variety of different labels to identify the people entering time to the system.

Not every single term within TimeSolv is customizable, but if you want to change something specific, head to the Settings area under each tab and you'll see what labels can be edited and what can't.

If you'd like more help on editing labels, call us at 1.800.715.1284, email us at [support@timesolv.com](mailto:support@timesolv.com) or Contact support.
