

TimeSolv Announces Certified Consultants Program to Make Conversion Easier than Ever

For over 15 years, TimeSolv has been offering affordable office management solutions to law firms and other professional organizations of all sizes to streamline and automate their time management, billing, expense tracking, and project management and reporting functions. In that time, we've been thrilled to hear from clients all over the country how TimeSolv has helped to increase productivity and profitability while economizing back-office functions, giving attorneys and other professionals more time to focus on what they do best: servicing their clients and reaching out to new clients.

We also know that converting administrative functions to a more efficient system takes some time and effort, and while we've always offered and will continue to offer ongoing training and product support for our product, some of our clients appreciate the added benefit of an onsite consultant to comprehensively manage and oversee the conversion to TimeSolv. To better serve those clients, TimeSolv is happy to announce the TimeSolv Certified Consultants Program (TSCC) to match clients with third-party consultants to provide the added personal touch in making the conversion to TimeSolv as efficient and productive as possible.

Our TimeSolv Certified Consultants Program Partners

When you work with a TSCC partner, your organization will have an onsite ally to make sure that your conversion from legacy systems, such as Timeslips, to the modern and easy-to-use TimeSolv system as seamless as possible. You will continue to have access to all of the training and support

resources offered by TimeSolv – including phone, email, and chat support available throughout the week – but with a TSCC partner, you can know for sure that your conversion to TimeSolv is being completed in the most effective and productive manner possible for your organization's particular circumstances and needs. Our growing list of TSCC partners include:

- [Crosspointe Consulting Group](#) – Bell Point, PA
- [Software Analysis Corporation](#) – Bloomingdale, IL
- [TSR Consulting Services, Inc](#) – Chicago, IL

Contact TimeSolv Today to Get Started on the Road to Increased Productivity

To find out more about how a TSCC partner can work with your firm or company to optimize your transition to TimeSolv, or to learn about any of the features that TimeSolv can offer in improving your organization's administrative functions, contact TimeSolv today at 1-888-570-0475.
