---

When you are trying to lower the costs of legal services for your clients, you need to consider the option of hiring someone else to do your legal billing, and perhaps even do it better than before with a level of expertise in the field. To save on the expensive overhead of billing tasks, did you know you can outsource your legal billing to TimeSolv? Our one-of-a-kind TimeSolv Outsourced Legal Billing service is designed to provide a fast, efficient, and cost-effective solution for billing. You'll not only be leveraging our staff, you will get the advantage of using our experienced knowledge and infrastructure, freeing your staff to run the business side of things.

## How it works

As an attorney, all you have to do is log your time and expense entries into TimeSolv. You can log entries both online and offline using our handy TimeSync tool. TimeSolv will then allocate the payments for you before creating draft bills. You will then be given the opportunity to review these draft bills, and if it is rejected, TimeSolv will even update any necessary changes for you, until you are happy with the final product. Finally, TimeSolv will finalize the bills for you and send them out via your preferred method – email, first class mail, LEDES, or all of these! We can even send a customer selected report. All that's left for you to do is to receive and enter your payments into the system.
