

Tip of the Month: PayPal for Invoice Payments via TimeSolvPay!

At TimeSolv, we're always looking for ways to make your experience smoother, more flexible, and efficient. That's why we're excited to about a feature that will make your payment process even easier: **PayPal in the TimeSolvPay Portal for invoice payments!**

Clients can choose to pay their invoices using PayPal, in addition to the existing payment methods like Credit Card and ACH. This means your clients have more flexibility and convenience when it comes to paying their invoices, and they can do it directly from the Client Portal.

Why This is a Game Changer for You and Your Clients:

1. **Increased Payment Flexibility:** Not all clients prefer to pay the same way. By adding PayPal, you're providing an additional payment method that many clients are already familiar with and trust. Some might even prefer it over other options, and now you can cater to that preference.
2. **Convenience for Clients:** PayPal is one of the most popular online payment platforms, and now clients can settle their invoices in just a few clicks – whether they're on their desktop or mobile device. Clients don't have to leave the portal to handle payments, making the process quicker and easier for everyone involved.
3. **Seamless Workflow:** Even with the addition of PayPal, the payment confirmation, receipts, and refund workflows remain exactly the same as with the other payment options. That means no extra steps or adjustments needed on your part. Everything is integrated and consistent across payment methods, so there's nothing new for you to learn or manage.
4. **Fast and Secure Transactions:** PayPal is known for its secure and reliable transactions, which means clients can pay with confidence. The added security features make it easier for your clients to pay quickly without worrying about fraud or data breaches.

The automatic addition of PayPal to your TimeSolv Client Portal offers greater flexibility and convenience for both you and your clients. Now, you can provide a more diverse range of payment options without any additional setup, allowing you to focus on what matters most – growing your firm.
