

Tip of the Week: Enable LawPay* Payments through Client Portal

Many of you may not know that you can allow clients to pay their bills through the client portal if your [LawPay*](#) account is connected to TimeSolv. This allows you to get paid faster by accepting online payments. And another great benefit of using TimeSolv is that your clients do not need to have an account and password set up to access the [portal](#), as the emailed invoice will include a link for them to directly pay through.
