

# Tip of the Week: How to merge multiple LEDES invoices into one LEDES file

---

TimeSolv incorporates the LEDES format (1998B,1998B V2) making it easy for attorneys and law firms to do electronic billing.

We understand that TimeSolv users spend a considerable amount of time uploading LEDES invoices one by one into regulatory systems. These billing portals now allow uploading multiple invoices to their systems with one file.

Accordingly, TimeSolv has now added the ability to select multiple invoices (LEDES format 1998B,1998B V2) and merge them into a single file and that is today's Tip of the Week.

You can create a multiple invoice LEDES file from either the Draft invoice or Sent invoice page. Simply select the invoices that need to appear on the file by checking the box next to the invoice and then hit the 'Download' button at the top right corner. A pop-up will appear where you can select LEDES format from the drop-down to download the file.

If you'd like more help with the understanding of LEDES billing or any tools, please call us at 1.800.715.1284, email us at [support@timesolv.com](mailto:support@timesolv.com) or Contact support.
