

Tip of the Week: Suggestions portal

TimeSolv has always been open to receiving your feature suggestions. We consider every feature request from a customer as a valuable opportunity to learn how we can improve our product and service.

We want to listen to and prioritize your needs.

That's why we recently put a good system in place in the form of a suggestions portal. Visit <https://timesolv.ideas.aha.io/> to submit your suggestions or to upvote existing ideas. You'll see a form appear when trying to submit a new suggestion:

All suggestions will be up for voting to see which feature ideas will benefit the maximum amount of users.

TimeSolv welcomes all types of suggestions, and we greatly appreciate your inputs to improve TimeSolv. Each request goes through a rigorous process of prioritization. Features that benefit the majority of users will receive a higher priority.

For unique business needs, TimeSolv offers a paid fast-track option. If you'd like more help or information on our suggestions portal, please call us at 1.800.715.1284, email us at support@timesolv.com or Contact support.
