

Tip of the Week: Visiting us in Chicago

The [2017 ABA TECHSHOW](#) gets started in Chicago later this week and TimeSolv will be there. Not only does Techshow provide a wealth of learning in how to leverage technology for your law firm, but it also serves as a showcase for leading legal tech firms, like TimeSolv!

If you're coming to the show, be sure to swing by our booth, #1002 and say hello. We always love talking to our customers face to face. You'll also see a preview of some exciting new features we're going to be rolling out soon (hint: rhymes with Compliment Porridge) and have a chance to get a great TimeSolv coffee mug.

We hope to see you in a few days!
